From Random House : The Random House Dictionary of the English Language. * The Unabridged Edition, with Thumb Tabs ! before purchasing it in order to gage whether or not it would be worth my time, and all praised The Random House Dictionary of the English Language. * The Unabridged Edition, with Thumb Tabs !:

0 of 0 people found the following review helpful. The very best English dictionary in the world!By Peter EvansThe Random House Dictionary is the best I have found for research, especially for personal proper names (nouns) since almost all other dictionaries, including the Oxford and Websters, do not. If you look up 'Henry" you will get all the Kings of England as well as those from othercountries as well. It also offers a number of other features: Maps of the world, English usage, grammar, Spanish, French, German and Italian, as well as many other special features. It remains the first dictionary I reach for when looking up just about anything.
