Didn't want to deal with a small telephone book size with the new version. Too bad, there's probably more stuff in it but "paperback novel" size is what I wanted.0 of 0 people found the following review helpful. One StarBy CustomerRidiculously too many words....print way to small! Goodwill donation.0 of 0 people found the following review helpful. A good pocket-sized puzzle dictionaryBy Max JermanRandom House does a good job on it's dictionaries. I know the effort they put into them after working with them other projects years ago. However, this version is so small, that is that the print is so small it is difficult for us to read now that we are at the trifocal age as far as our glasses are concerned. If you have good eyesight, no problem. For some of us senior citizens, reading the small print is a problem.
