An Extremely Useful GuideBy MaruSkipperRobert Half expertly guides you through the hazardous maze of getting a job. He helps you write your resume, get that interview and teaches you how to conduct yourself during the interview. He even provides good answers to those incredibly stupid interview questions such as "tell us about your worst personality fault".Don't go on an interview without having read this book first.2 of 2 people found the following review helpful. A book to help you succeed on paper at anythingBy Shannon FrisingerThe Robert Half Way to Get Hired in Today's Job Market is one of the most useful books you'll ever own. Mr. Half gives the reader help all the way through he hiring process -- how to write a resume, cover letter, how to prepare for a job interview, what to say in the thank-you note. By far, the most valuable part of the book, however, is his word lists that help put "the sell" in your resume. Besides working for resumes and cover letters, I have used these lists to help me write recommendation letters. Our copy is battered and worn and very well-used. Buy this book. It is an excellent reference.
