Revised and expanded for this second edition, The Routledge Dictionary of Twentieth-Century Political Thinkers

introduces the reader to important contemporary thinkers, and through them provides an informed, reliable and accessible guide to the ideas that have shaped--and continue to shape--contemporary political thought and activity. It has 170 entries from 96 contributors, including non-Western theorists and those who have influenced new movements based on the issues of ethnicity, gender and ecology. The entries are alphabetically arranged and include brief biographies, outlines of major ideas and suggestions for further reading.

...the readily digested summaries and the selection of thinkers attuned to course requirements and student interest will ensure that this is a regularly consulted book. Anthony Chalcraft, Reference sAbout the Author Robert Benewick is Reader in Politics and Dean of English and American Studies at the University of Sussex. Philip Green is Sophia Smith Professor of Government at Smith College, Northampton, Massachusetts.
