**Martyn Hanson : The Story of The Nice: Hang on to a Dream** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Story of The Nice: Hang on to a Dream:

The Nice were Keith Emerson's band prior to superstardom in Emerson, Lake and Palmer. Formed as a backing band for soul singer PP Arnold, The Nice laid the foundations for what would become progressive rock. Their debut album mixed rock with jazz and classical music, and their hard rock reinvention of Leonard Bernstein's 'America' propelled

them into the US and UK charts, influencing their biggest fan, Jimi Hendrix, to reinterpret 'The Star Spangled Banner'. 'The Story of The Nice: Hang on to a Dream', first published in 2002 and now fully revised and updated, chronicles the history of the band. Drawing on interviews with band members and their associates, together with archive sources, it is a fascinating tale of musical ambition, engagingly told with a keen eye for period detail. Foruli Classics - classic music and popular culture books reborn.
