Beautiful little book, with some fun factsBy Elena MilenkovicI surprised my mom with a trip to NYC for Christmas, but needed something I could wrap up to put under the tree. I ordered a bunch of NYC Guide books from , and this was by far my favorite. It's very pretty, and has some different

info from the typical guide books. Great for someone who is interested in seeing the fashion side of NYC. 1 of 1 people found the following review helpful. Two Stars By HiStar Found the book quite gloomy to look it, so wasn't particularly inspired unfortunately. 1 of 1 people found the following review helpful. Great book for a gift By ABCreations I gave this as a gift to someone who lives in NYC. It is a visually beautiful book. The size is not as large as a typical coffee table book. However, it is full of photographs. Also, it contains a lot of useful information for someone who lives in the city or is planning a trip.
