Taste of Home : The Taste of Home Cookbook, Revised Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Taste of Home Cookbook, Revised Edition:

I have spent the past several days going through it from cover to cover. I tried my first recipe from it last night (Pesto Pork Roast), and it was wonderful and simple. I have several more recipes lined up to try asap. I do not understand the negative review. I collect recipe books and I don't have anything that compares to this one. Recipes that one would think too difficult to even try, are made simple in Taste of Home. Plus, in the book I bought at the show there is a free 1 yr subscription to the magazine, which is a \$23.95 value. I'm ordering several through. It would be a great wedding gift because of all of the handy, basic tips and instructions.
