**Ferguson Publishing : The Top 100: The Fastest Growing Careers for the 21st Century** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Top 100: The Fastest Growing Careers for the 21st Century:

0 of 9 people found the following review helpful. Not with the times?By A CustomerI'm very turned off by the book's cover. In this day and age, does everyone want to wear a suit to work and be a ladder-climber? The cover seems to me to be out of step with the times.

Ferguson's best-selling resource combines the latest information from the department of Labor with our extensive career database to provide information on careers that are expected to experience above average growth over the next 10 years. Comprehensive information is provided on each career, including, the nature of the work, earnings, training and education requirements, and advancement opportunities. Some of the hottest careers covered include: database

administrators, software engineers, medical assistants, physical therapists, and paralegals.

"A must for every job counselor and every school and public library's job/career bookshelf." -- Midwest Book

"Recommended for secondary schools, colleges, and guidance and counseling offices." -- Booklist/RBB
