1 of 1 people found the following review helpful. don't waste your study timeBy pesto22I wish reviews on this book were up when I bought the book or before I invested the time to take the practice tests. There are so many mistakes in these practice questions that I fear reading any explanations will actually worsen my score. Stay away!!1 of 1 people found the following review helpful. Chalk Full of ERRORSBy RudigerThis book is so poorly written that there's more benefit to correcting the authors mistakes than trying to learn from the practice questions.1st question states that M and N are unique prime numbers between 20 and 24. List goes on and on. This woman should not be allowed to publish any books and I'm shocked that she's a doctor. 4Chan should investigate these claims as it give a bad name to other doctors. Stay away.

To achieve a top score on the GMAT, students should follow a three-step plan: Learn the concepts on the test Learn the tips, traps and strategies of the test writers Learn to work faster and smarter by taking timed practice tests This publication covers the final step; it offers the toughest mock exam you are likely to see, including the confusing, tedious, and time-consuming questions for which the GMAT is notorious. For the average student, these questions are the ones that you either skip in the interest of time or simply guess because you don't know how to approach them (or you got stuck somewhere in the verbiage). They are the annoying questions that keep you up at night because you know in your heart that you should have gotten them right. Relax. That's what this exam is for to show you the worst that the GMAT will throw at you, with a complete explanation and plan of attack for every problem. Our best recommendation is to tackle this exam AFTER you have reviewed all of the concepts on the test and learned the typical tricks, traps and pitfalls that the test writers are most likely to use. Then, use this material for all it is worth a chance to earn a top score and gain admission to the most prestigious business schools in the nation.
