LTC Jay Hicks, Sandy Cobb : The Transitioning Military Project Manager (The Transitioning Military Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Transitioning Military Project Manager (The Transitioning Military Series):

3 of 3 people found the following review helpful. Tailored for you...the Project ManagerBy RussFor any military

servicemember looking for a meaningful post-military career in the Project Management sector, The Transitioning Military - Project Manager is the most powerful tool you could have at your disposal! From developing the proper mindset to assessing your value in the marketplace to locating the key resources that will get you hired, this book covers it all and more! Tailored specifically to the military veteran, it is a gold mine of assessments, resources and personal stories of successful transitions. You will find definitions, descriptions and a template to help you create your personal strategic roadmap. The Transitioning Military - Project Manager serves as a primer, a guide and a reference. Prepared by authors who have firsthand experience with the military and the Project Management community this book MUST be your first step as you begin your journey into a bright new future.0 of 0 people found the following review helpful. Thinking of Project Management for a Post-Military Career? This Book is For You!By CustomerAs the title says, the book is for the transitioning project manager. The book has great information on how to create a solid plan that won't leave a retiring or separating member wanting. Understand though, it's not a "do everything for you" book. The great advice contain in the book requires the reader to do their own research and put the work in. That work though is made far easier thanks to the solid direction this book provides in getting started. I will be transitioning in a few years myself, and I was already applying concepts the moment I was done with the book.In sum, if you're a transitioning military member thinking about project management, purchasing the book is worth the price even if just to explore the idea. And if you become sold on project management, the book is great template to get started.Matt S0 of 0 people found the following review helpful. Four StarsBy CustomerAs advertised

The Transitioning Military Project Manager is designed to help transitioning and retiring military personnel evaluate and understand their potential for transforming themselves into a marketable commodity within the public and private sectors as Project Managers. Veterans gain insight of their personal military experience, understand the value of their knowledge and how to confidently approach their transition into the civilian marketplace as a project manager. Common sense assistance is presented, through application of inherent skills. Transitional knowledge is codified through the use of authoritative sources such as PMI, DAU and other veterans who have successfully transitioned into the project management career field. This book provides a method for personal change and surviving the transition from the service into the DOD or civilian sectors. In addition to authoritative project management information, The Transitioning Military Project Manager also contains success stories, self-evaluation, personal assessments, Personal Strategic Roadmap development and methods for working through associated transitional challenges. This book is for everyone transitioning from the military and considering project management among their multiple career fields choices after the service.

About the AuthorJay Hicks Jayis an author, instructor and consultant, with over 30 years of business and government planning and leadership. He advises commercial and federal organizations on the planning, development, and leadership of Project Management Organizations, delivering viability and value. With a special kinship for military personnel, Jay provides guidance on successful civilian career transition. He is the co-founder of Gr8Transitions4U, where advocatingthe value of hiring military personnel is the key focus. After a distinguished Army career as a tanker, information technologist and logistician, Jay developed and ran multiple project management organizations and programs for Lockheed Martin, L3 Communications, BAE and Jacobs Technology at US Central Command and US Special Operations Command. He frequently speaks and advocates for service membersat project management symposiums and military transition programs, sharing his passion for successful career transition. Jay currently serves as the Military Liaison for the Project Management Institute, Tampa Bay Chapter. Sandy Cobb Sandyhas been a visionary in the Information Systems sector for close to three decades. She has worked in the Big 4, owned her own software utility company, a trainer, and has been a contractor providing expertise in Project, Program, Portfolio, and Strategy Management at both USCENTCOM and USSOCOM. Her comprehensive business and product management expertise, combined with a highly intuitive sensitivity to organizational and strategic dynamics, has been evidenced in both start-up and structured corporations.
