**Nageswara Rao R : The Ultimate C: Concepts, Programs and Interview Questions** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ultimate C: Concepts, Programs and Interview Questions:

The main objective of writing this book is that every student should be able to acquire necessary skills required to become a programmer. The logic of each and every problem is explained in a simple manner which helps the student

to write better programs. This book discusses all concepts of C starting from fundamentals to advanced topics in a lucid manner. It covers hundreds of solved programs which are useful to the students for their examinations. It also covers the interview questions which help the students come up with flying colors in their career. All the concepts are discussed in a lucid, easy to understand manner. A reader without any basic knowledge in computer s can comfortably follow this book. Helps to build logic in the students which becomes stepping stone for programming. Interview questions collected from the actual interviews of various Software companies will help the students to be successful in their campus interviews. Hundreds of solved programs help the students of Indian Universities do well in their examinations like B.C.A, B.Sc, M.Sc, M.C.A, B.E, B.Tech, M.Tech, etc. Works like a handy reference to the Software professionals in their programming. Starting at basic level, this book covers advanced topics like Pointers, Data structures, Searching and sorting techniques and Graphics.

About the AuthorDr R Nageswara Rao author of the best seller Core Java an integrated approach once again touches you with his stupendous new work The Ultimate C. His aim in writing this book is not only to teach C but also make the student successful in the Campus and Off-campus interviews. Dr R Nageswara Rao is associated with teaching Computer Science since 1993. He has worked at various colleges as Head of the Department, Dept of Computers and as a freelance developer for some time for a couple of organizations. He taught C and C++ till the year 2004 and since then more involved in teaching Java. Since 1998, Mr Rao was on the editorial board of Computer Vignanam, a widely circulated monthly magazine published in Telugu. He wrote several articles on C, C++ and Java including articles on Virtual Reality, Mobile applications, Blue tooth technology and Global positioning systems. His dedication in teaching is continuing to attract thousands of students from various Indian Universities in addition to students from foreign countries.
