By Customer This is a good book I have bought others, but this one is best and has more current recipes. I like these kind of instructional books for food I haven't made and it has pictures of everything.

By Sue Edmonson This is the most fun, very best, most comprehensive and easy to follow cooking masterpiece. I pick it up every day and can't get enough of it. And I've been cooking for decades. I like it so much I have ordered two more to give as gifts.
