1 of 1 people found the following review helpful. A good starting place...By Neil HajbaA good starting place if you are interested in having or taking care of small pets. This book does not go too deeply into any one particular subject and/or species. Excellent for children and young adults (and adults young at heart).0 of 0 people found the following review helpful. perfect referenceBy Customerperfect reference0 of 0 people found the following review helpful. Five StarsBy RabeckhaVery informative

A complete practical guide to pet-keeping, covering all aspects of choosing and caring for kittens and cats, puppies and dogs, and popular small mammals. Each chapter features the most popular breeds in each species, based on general availability and suitability. Find out how to choose the best pet for your lifestyle plus practical tips on buying a

pet; housing and exercise; foods for a balanced diet and what to do when your pet is sick.
