By t Jones These questions and answers are so applicable and relevant to the interviewing process that they should be in every college career center and school. These questions comprise of approximately 85-90% of questions interviewers ask. These cards are a true leg up in the interviewing process. 0 of 0 people found the following review helpful. Five Stars By K. Holland Great for job hunters!! 2 of 2 people found the following review helpful. Nice Idea By Hybrid Picked these up so that i could prep for interviews better in this much more competitive environment

created by the economy. Lots of standard questions, as well as some newer ones i have begun to hear in interviews. For the price how can you say no to anything that gives you a leg up on he competition and gives you a chance to stand out amongst other candidates? Not to mention this format is much more fun and attention holding than plodding through another book and making notes in the margins.I recommend going through a few cards a day (there are many) and preparing your own response along the guideline answers provided. Highly recommended.

The interview can be the most important part of landing the position you want and need. These 300 cards prepare you to ace the interview and get the job.From basic ("What makes you think you can do this job?") to tricky ("Tell me about a time you challenged your supervisor") to illegal ("How old are you?") here are the only job interview prep cards that show you how to say the right things and leave a lasting impression.
