Kirsteen Rogers, Laura Howell, Alastair Smith : The Usborne Internet-Linked Science Encyclopedia (Usborne Internet-Linked Discovery Program) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Usborne Internet-Linked Science Encyclopedia (Usborne Internet-Linked Discovery Program):

0 of 0 people found the following review helpful. Great InformationBy TJNVery informative book an various aspects of science. I used this book as a reference in my classroom during a variety of science units. The facts that it gave were so interesting and engaging. It gave information that opened the imagination of the students that was hard to draw from the textbook we are required to use. Highly recommend this for any teacher to use with their students.0 of 0

people found the following review helpful. Five StarsBy EmilyThis book is a great launching-pad for science information. Thank you to the quick delivery and coming as described.0 of 0 people found the following review helpful. Great Science book for homeschoolers!By MGWe love this book! It's filled with wonderful illustrations and written in a way my 5th grader can understand. Highly recommend!
