A sample comment for a bookstore in California: If you're traveling in central California, we believe you'll find a visit to this shop one of the highlights of your book hunting experience. This is a Class A shop. The shop is large, the shelves meticulously organized and labeled, the books are in very good condition and the shop is spacious enough for you to browse comfortably and leisurely. We were most impressed and would be surprised if our readers did not come to a similar conclusion.
