Ray Rhamey : The Vampire Kitty-Cat Chronicles before purchasing it in order to gage whether or not it would be worth my time, and all praised The Vampire Kitty-Cat Chronicles:

0 of 0 people found the following review helpful. Not great, but not totally lame eitherBy LynxieI'll admit, the idea of a kitty-cat vampire intrigued me. It is why I decided to get this book. I wasn't sure how it would be done, but I really thought it held a large amount of potential.I was wrong!Patch, knew too much, understood too much and despite not

being able to talk or possessing opposable thumbs, was able to communicate too well with the humans around him. I am a cat person, always have been and I think I always will be, so I understand that a person can come to understand their cats meows, facial expressions and body language. I truly believe that! What I don't like, however, is that throughout the tale, people who had just met Patch just KNEW what he was trying to say. That was unrealistic. Now, this annoyance aside, I did enjoy the slightly different vampire 'side-effects' that were explored in this book. Too often vampires are all powerful and have very few weaknesses, aside from the sun. Some of Patch's outings and excursions were too far fetched and did cause a few eye-rolls. If you take this book as a bit of a light hearted roll in the hay with vampires, then you will probably enjoy it. If you are a die-hard vamp fan, this book would probably piss you off or annoy you. Overall, the book was OK. Not great, but not totally lame either. 0 of 0 people found the following review helpful. Vampire kitty cats are really quite fun, just like regular cats. By George Libby This author tells a story that is a fun summer read, light, enjoyable, and dealing with undead characters in a way that makes you both feel for them and keeps the pages turning. I suspect he has been a servant to several cats and learned a lot from them. I am looking forward to reading his novel designed to provide unique ways to address gun violence in the USA as well. 0 of 0 people found the following review helpful. Cute By Vicki ZA very different take on the vampire persona. You feel sorry for the Kitty when he's unwillingly made into a vampire. And you feel sorry for the vampire who did it to him, she really couldn't help herself. It was a really good plot, but this story was just aching for more zinging one-liners because it was the perfect story with the perfect character to give them, from a kitty-cat point of view. It was funny, but not in a laugh-out loud kind of funny. Love the twins.

Best-selling author Tess Gerritsen says, "What a pleasure! Quirky and laugh-out-loud fun. Ray Rhamey takes the vampire novel where its never been before, into the realm of sheer hilarity. This tongue-in-cheek satire skewers amoral lawyers and businessmen, preachers who are religious in name only, self-serving media types, and the vampire genre itself. You've never inhabited a vampire world like this one. The Vampire Kitty-cat Chronicles turns vampire mythology on its head in a fast-paced adventure when Patch, a calico tomcat, is turned into breakfast and a vampire kitty-cat by a starving vampire. Narrated by Patch in a deliciously snarky cat take on the world, he struggles to find a new life, as it were. In the process, he's tried for murder, just about shotgunned into undead pieces, comes inches from having his tail cut off, seconds from being fried by the sun, and kidnapped twice. Oh, yeah, and turned into a (shudder) politician campaigning for vampire rights. On the other paw, he does hook up with a sweet Siamese, and it looks like he's on the way to winning that election . . .
