I especially liked the cheat sheet up front that summarized some key points, like strengths of Bear, recruiter advice, insider quotes and salary ranges. I'm now gonna buy a few other guides from WF to help me along with my job hunt and interview research. Cheers!0 of 0 people found the following review helpful. Like actually being there!By A CustomerThis guide was great! I felt like I had the benefit of having interviewed dozens of people from the company, without actually having to do the work. I had my eye on Bear Stearns before, but now I know for sure it's where I want to be!

Think investment banks are all the same boring old vanilla (no sprinkles)? Not Bear Stearns. Founded in New York in

1923 by Joseph Ainslee Bear, Robert B. Stearns, and Harold C. Mayer, Bear has gained a distinctive reputation on Wall Street as an aggressive trader and a champion of the little guy. It's also famous for exhorting employees to save paper clips and reuse rubber bands and envelopes, even in the late-90s bull market (not just interoffice envelopes, either all envelopes). If this is a company that piques your interest, then check out this guide, which contains information on: How things like the paper-clip saving policy translate into what the company stands for What insiders like and dislike about working at Bear Stearns What the company's history is How Bear Stearns compares to other top Wall Street firms What the company's insiders say Bear Stearns recruiters look for in interviews What ex-CEO and legend Ace Greenberg is up to these days, and whether he's still a presence at Bear
