The writing is smooth, the reasoning is strong, and it's clear the author did his research--a good thing for me as it made my task of researching the company much easier. I went into the recruiting sessions with both guns firing, with the ammo furnished compliments of WetFeet. I felt good about my chances at snagging an internship with Goldman, but I felt like I got a leg up on the competition, having read through your guide. Thanks much! 0 of 0 people found the following review helpful. Great "study guide" By A Customer This is a great guide for doing your homework before going into the recruiting season. I feel well prepared to face my interviews in the fall. I recommend this along with the other wetfeet guides to anyone who wants to work for one of these big national firms.

Talk to people up and down Wall Street, and most will tell you that the Goldman Sachs Group is at or near the tip-top

of the investment banking world. Survey after survey gives Goldman leading marks for its service in a variety of product and industry areas.
