Jeff Siegel : The Wine Curmudgeon's Guide to Cheap Wine before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wine Curmudgeon's Guide to Cheap Wine:

3 of 3 people found the following review helpful. refreshingly directBy W. HandyThis book assumes no prior knowledge about wine and aims to demystify this most mystified of topics. Some have claimed it's too basic, "obvious," or some such. That may be true if you already know your way around wine, aren't intimidated by all the frou-frou about it, or have found your own way to experiment. I started drinking wine because of the health research, and I don't have a great memory for tastes. After reading this, I feel much more grounded. I'm already started with a

wine merchant I think I can trust, and I'm taking my own notes. The book has certainly been helpful to me.0 of 0
people found the following review helpful. big hitBy Tricia FloresIt was a big hit with my father2 of 3 people found
the following review helpful. Fantastic Book Tells the Truth about the Wine Industry should be read by anyone who
loves wine either cheap or expensiveBy R. BicicchiExcellent book about wines tells the truth about the wine industry
and wine publications. Describes the weird US wine distribution system. Fun to read

Everything you need to know about cheap wine from someone who has made it his life's work -- and isn't embarrassed
about it.
