From Brand: American Association of Museums : The Wired Museum: Emerging Technology and Changing Paradigms before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wired Museum: Emerging Technology and Changing Paradigms:

Emerging technology in the field of telecommunicationsthe Internet and related applicationsaffects the way we receive and transmit information of all kinds. How will these new technologies affect museums' missions, operations, and even definitions, both now and in the near future? With chapters on online networks, digitization of collections, cultural intellectual property, public access, finance, management, and more, experts in the fields of museums and communications offer their analyses of the emerging information technology and the opportunities and challenges these changes present for museums.
