book about the history of comics, this might be the one to get. Quite a bit more informative than other popular books
in this wheelhouse, but still featuring plenty of black and white reference images as well as a good selection of full-
page color illustrations.1 of 1 people found the following review helpful. Thanks for the memories!By Ethel GrimesI
had this book when I was a teenager and it was one of my favorites for years. Sadly, it fell apart and I eventually
parted with it. I was so happy to find this book again, and at such an awesome price! Thanks so much! :D0 of 0 people
found the following review helpful. InvaluableBy Ronald C. WilkinsonGreat summary of so many comics. There are
online resources that do the same thing now but this is still an abundant resource.
