Mark Long : The World of Satellite Television before purchasing it in order to gage whether or not it would be worth my time, and all praised The World of Satellite Television:

0 of 0 people found the following review helpful. Basically outdatedBy David HutchisonAs a basic book on the subject I would say it's ok, however this technology is changing so rapidly that the material is dated.Mark Long needs to write an up to date version. I'm referring to the latest digital modulation methods and the reasons for them.If this trend of more complex modulation methods continues this will be the end of FTA and this will happen without encryption !0 of 0 people found the following review helpful. Five StarsBy LianLove it!...0 of 0 people found the following review helpful. Five StarsBy ROGER TURBERVILLEOK

This best-selling book provides everything you'll need to know about selecting, installing, operating, and maintaining your home satellite system. DBS, digital video compression, HDTV, and other innovations coming your way are also

presented in a down-to-earth style that is accessible to everyone.

"The World of Satellite TV is a worthwhile contribution to the satellite TV industry. It should be welcomed by anyone who doesn't feel completely secure in the blizzard of terms and knowledge that surrounds the subject."
