A few memoir excerpts were useful as prompts to get students to imitate/mimic the style or thought process. Unless I was writing/teaching memoir, I don't feel I would read this for pleasure. I would rather spend time reading the individual memoir in their entirety --- those I find most intriguing.2 of 2 people found the following review helpful. Good short readBy Daisy MaePicked up this book from the library and enjoyed it so much that I ordered my own copy. I can pick it up and read one memoir when I have just a few minutes--a good addition to any library.0 of 0 people found the following review helpful. Five StarsBy Mohammad RahmanGreat

Eve Claxton has taken the most intriguing portions of the world's most famous memoirs and compiled them in this volume. The reader experiences world history as the authors lived it and gains rare insight into the lives and personalities of some of the world's most important writers, thinkers, athletes and artists. From Charlie Chaplin's childhood walks through Victorian London and Alan Bennett's wartime boyhood in Yorkshire to the day Muhammad Ali discovered boxing and Mahatma Gandhi experimented with cigarettes; from Primo Levi's capture of fascist militia at twenty-one and Katherine Hepburn's first acting job at the same age to Charles Darwin on his lifelong love-his work- and Nelson Mandela on being released from prison at seventy-one. *The World's Best Memoir Writing* is a uniquely enjoyable immersion into some of the world's best, and most personal, writing.
