**Richard Scarry : What Do People Do All Day?** before purchasing it in order to gage whether or not it would be worth my time, and all praised What Do People Do All Day?:

0 of 0 people found the following review helpful. Childhood ClassicBy Marion RayA favorite young children's book that they still enjoy when they are older. It's been a long time since I read this book to my son and daughter. My daughter is 9 now and still looks at the pictures and reads it herself. Lots of other books were labeled "baby books " to give away but this one stays on her shelf. Richard Scarry's stories and characters are classics of childhood. His genius was taking complicated issues, like the inner workings of a house, and illustrating it so a five year old could understand a furnace, fuel tank, hot water heater, and cold air return. In addition to building a house there are pages on Tom Sawyer's Sawmill, Foolsap's Paper Company, a train trip, ship voyage and bread making in Able Baker Charlie's

oven. When my son was younger his favorite story and pictures explained building a new road. 2 of 2 people found the following review helpful. Still awesome. By R. Cate I had this when I was 4 and gave it to my oldest daughter when she turned 4, some 15 years ago. I got this one for my youngest and she's loving it as much as I and my oldest did. The only thing that bothers me is that it's abridged. Not sure why there has to be an abridged version of this classic for little ones, but it's still awesome, just a little less so. 1 of 1 people found the following review helpful. Everyone is a Worker By Serendipity I bought this book on a whim and was pleasantly surprised. The book is divided into different jobs that people have such as baker, farmer, construction worker, etc and emphasizes the importance of each job and its necessity to make a community work well together. Each section/story has detailed pictures and descriptions that explain, step-by-step, the process of how a house is built or how bread is made, or how food is grown and then delivered to the grocery store. The kids love this book and can glean different information/concepts each time it's read to them. My 4 yr old also enjoys studying the pictures on her own, as the pictures are detailed enough to tell the story by themselves.

Illus. in full color. Shows and tells what busy people do every day to build houses, sail ships, fly planes, keep house, and grow food.

"Positively guaranteed to please any small child."--The New Yorker. From the Inside Flap Illus. in full color.
