**JOHN H. RUEHLIN : What's Next? Job Hunting: The Process of Starting a New Career** before purchasing it in order to gage whether or not it would be worth my time, and all praised What's Next? Job Hunting: The Process of Starting a New Career:

0 of 0 people found the following review helpful. This book was highly recommend to me as I prepared for my transition from ...By HavocmanThis book was highly recommend to me as I prepared for my transition from the military after a long career. It is full of great stuff but my 2004 version is dated. If you pay attention in TAP class, this book is a good supplement.3 of 3 people found the following review helpful. ResourcefulBy Joe ForbesI purchased this workbook when I decided to transition from the U.S. Navy after 29 years. I found it very resourceful in preparing to seek employment in the private sector. It helps you organize your network, thoughts, and resume while preparing you and your family for the next chapter in your life. This is a book that you will refer to later even after you have landed the dream job.0 of 0 people found the following review helpful. I keep giving it to people I care about who are ready for a great new career moveBy CustomerI have bought this book three times now. I keep giving it to people I care about who are ready for a great new career move. So much more than just a resume book.
