Ponder, if you will ...Why are tennis balls fuzzy? How come birds don't tip over when they sleep on telephone wires?What makes yawning contagious?Why, oh why, do roosters have to crow so early in the morning?Pop-culture guru David Feldman demystifies these topics and so much more in When Do Fish Sleep? -- the unchallenged source of answers to civilization's most baffling questions. Part of the Imponderables series and charmingly illustrated by Kassie Schwan, When Do Fish Sleep? arms readers with the knowledge about everyday life that encyclopedias, dictionaries, and almanacs just don't have. And think about it, where else are you going to get to the bottom of why Mickey Mouse has only four fingers?

About the Author David Feldman is the author of ten previous volumes of *Imponderables*. He has a master's degree in popular culture from Bowling Green State University in Ohio and consults and lectures on the media. He lives in New York City.
