**Collins Maps : Whisky Map of Scotland (Collins Pictorial Maps)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Whisky Map of Scotland (Collins Pictorial Maps):

As distilleries are changing all the time some were not listed on this map. Nice and convenient to see where the distilleries are around the country so we're glad we had it for our trip. 0 of 0 people found the following review helpful. The actual mapped area of Scotland is too small on this map By D. Lomax Although the dimensions of the map were large, the actual mapped area of Scotland was shrunk so that brand images of blended whisky and photos of the distillation process could be printed on the map side. The map is ok, but didn't meet my needs. 0 of 0 people found the following review helpful. Five Stars By linda a pasch Wonderful
