Barnet's works, while remaining universal, reference his own personal history complete with images of his wife, his daughter, and their family pets. As James Thomas Flexner wrote, Barnet's work 'makes us experience the interplay between the personal and the universal.' While remaining representational, the simple elegance of the figures and their flat surfaces reflect his exploration with abstraction. There are 28 full color, folio sized - 11.5 x 16" posters in this wonderful paperback book. The rear of each gives information about the original work.
