**From Wilton : Wilton Wedding Cakes: A Romantic Portfolio** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wilton Wedding Cakes: A Romantic Portfolio:

5 of 5 people found the following review helpful. 50/50By KnowledgeableDO NOT BE FOOLED! The book that is being shipped is The Wilton Way of Cake Decorating. It is a 60's- 70's hard cover book filled with an encyclopedia of knowledge and very useful information/techniques. The techniques are valuable because they are still applied today. A must-have for novices. I read the review about a guy doing multiple returns in hope of getting the updated one, Wilton Wedding Cakes, but I wont even try. While Wilton Wedding Cakes is a very good reference and idea book, the older version is more like a handbook for cake decorators. Wilton Wedding Cakes is also paperback with less pages. When I received the package, I was surprised, but not terribly upset b/c I figured it was a possibility to get the older one. I

decided to give it a chance and look through the pages. I won't return because I found it very useful for an awesome price. My score is not too high because of the seller's intentional false advertising.0 of 0 people found the following review helpful. Taking care of the customer...By F. HiattUnfortunately I never received this title because it was lost in the mail. World of Books did replace the item with a comparable item, and I received it shortly afterward. At the time, I was not completely satisfied and World of Books made note of the fact. They bent over backwards and sent me another comparable title on their tab. Although they did not have to do this, they took care of their customer. In today's business world, it is hard to find a company that lives up to customer service and satisfaction guaranteed... World of Books does exemplify this principle.Thank you!4 of 4 people found the following review helpful. Very informativeBy Robin AllgoldThis book is excellent for those who are just starting out with cake decorating. The book includes, what each decorating tip is used for and an actual size example of what design it makes, icing recipes, how to prepare a cake for decorating, how to icing a cake, and many cake designs. The only reason I rated it four stars is because the cake designs are outdated for this time. I think there is an updated version of this book, but this one still is very informative.
