3 of 3 people found the following review helpful. Excellent book, excellent service!By William Lenzke IIIThe book is even better than I had been led to believe! The sketches and descriptions are very detailed and fascinating. The book arrived incredibly fast, and is in great condition. It even has an inscription and signature from one of the owners of the Dominy Clock Shop! The dollar value of the book undoubtedly exceeds what I paid as a collectible, but pales in comparison to the worth of the knowledge contained therein.
