Frank A. Hoffmann : WIXY Weekly Music Charts: 1966 - 1970 before purchasing it in order to gage whether or not it would be worth my time, and all praised WIXY Weekly Music Charts: 1966 - 1970:

Excellent recap of weekly music charts at WIXY in Cleveland1 of 1 people found the following review helpful. Many of the surveys contained within this book (and MANY ...By Survey GuyMany of the surveys contained within this book (and MANY others of those by Mr. Hoffman) are ones "I" personally typed up and entered at the ARSA website: <http://www.las-solanas.com/arsa/> To see them used here without any acknowledgment whatsoever and with the "Copyrighted Material" notation leading one to believe that this was Mr. Hoffman's work is very disappointing and misleading indeed. EVERY SURVEY included in ALL these books is available for FREE at the ARSA website along with survey images, interactive/searchable databases, etc. Save your money!1 of 1 people found the following review helpful. These are not the WIXY charts you're looking for.By historysocietyladyDon't bother with this. These books do NOT contain

copies of the original WIXY charts that used to be handed out at record stores in the 1960s. The pages are merely transcribed chart listings Hoffman took from web sites, primarily the very cool Airheads Radio Survey Archive (ARSA). Missing are the snapshots of the originals and the searchable database you'll find at ARSA's web site. Save your cash and save a tree by checking out ARSA for free!

WIXY became the leading Top 40 AM radio outlet in the Cleveland market during the 1960s. This volume reproduces the station's weekly pop music surveys from the latter half of that decade. Also includes a concise history of the station. Like the other radio charts titles, my goal was to provide a convenient chronological compilation of weekly surveys with corrections of the considerable errors found in both the original sources and in translation to online sites. These radio charts which exist in the public domain can be found in a multitude of sources, including original published sheets distributed via retail outlets, mail inquiries, etc., notation of on-air broadcasts, back issues of area newspapers (where stations are located) and music trade periodicals, specialized reference books, and websites interested in historical documentation, most notably, Oldies100, musicradio77, and ARSA. I employed multiple sources in the compilation of each radio chart volume in order to provide the most accurate data possible.
