A must-have for all job seekersBy A CustomerThis book is a comprehensive and easy to read manual for job seekers. It covers not only the standards of job search (resumes, cover letters, etc.), but also the more elusive points of a successful search: networking, interviewing, and using the telephone. It offers some creative ideas to set you apart from the crowd. Equally important, it is designed to be a reference manual with easy to find sections and lots of tables and charts. As a career coach, I have read hundreds of books on resumes and job search and can tell you that this is by far the bible of job search. It is truly a must-have for all job seekers.0 of 1 people found the following review helpful. Simple and Straightforward; A Helpful BookBy Dale
