**National Geographic Maps - Trails Illustrated : Wrangell-St. Elias National Park and Preserve (National Geographic Trails Illustrated Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wrangell-St. Elias National Park and Preserve (National Geographic Trails Illustrated Map):

0 of 0 people found the following review helpful. These are my go-to maps  
By Kunga Jigme  
These are great maps. Haven't covered all of the territory to comment further yet.

By HMS Warspite  
The rugged Wrangell-St. Elias Mountain Range straddles the border between the State of Alaska and the Canadian Yukon, with a front porch on the Gulf of Alaska. The Wrangell-St. Elias National Park is the largest by land area in the US, and is among the least traveled. National Geographic's "Wrangell-St. Elias National Park-Alaska" map provides topographic coverage of the park's terrain. One side shows the entirety of the park at a scale of 1:375,000. The other side has detailed inserts, at a scale of 1:85,000, of the most accessible areas, near the Gulf of Alaska port of Yakutat, near the old mining town of McCarthy and the Kennicott Mine off the Richardson Highway, and from the Nabesna access trail off the Tok Cutoff of the Glen Highway. The Wrangell-St. Elias National Park has very little supporting infrastructure and those who venture inside the park are advised to consult additional geodesy products to ensure sound navigation. The map itself is water resistant, flexible, easy to read, and easily transported in a pocket or rucksack. It is highly recommended as a planning aid for those who have the opportunity to visit one of North America's great wild spaces.

Waterproof Tear-Resistant Topographic Map  
At 13.2 million acres, Wrangell-St. Elias could fit Yellowstone, Grand Canyon, Glacier, Olympic, and Yosemite National Parks within its borders with plenty of room to spare. It stretches from one of the tallest peaks in North America, Mount St. Elias at 18,008 feet, to the ocean. More than a quarter of the park is covered with glaciers, including the tidewater Hubbard Glacier, piedmont Malaspina Glacier, and valley Nabesna Glacier. Arrive in the area using one of only two paved roads or use the mapped landing areas, seaplane bases and anchorage sites and continue your exploration with mapped hiking trails and primitive routes. Two insets show detailed access to the Kennicott Valley and Nabesna. Explore the backcountry using the map's contour lines, elevations, labeled peaks and summits, water features, selected waypoints, areas of wooded cover and color-coded boundaries between different land designations. Other recreation and adventure points of interest include ranger stations, campgrounds, trail shelters, public cabins, restrooms and scenic viewpoints. Some additional map features are background information of the various public lands in the area, wilderness safety tips, bear encounter guidelines and essential contact information. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Allen Glacier, Bagley Ice Valley, Barnard Glacier, Bering Glacier, Bering Lake, Bremner Glacier, Bremner River, Cape Saint Elias, Cape Suckling, Chisana Glacier, Chistochina River, Chitina Glacier, Chitina River, Chugach Mountains, Chugach National Forest, Columbus Glacier, Copper Lake, Copper River, Dadina River, Gakona River, Granite Range, Gulkana River, Guyot Glacier, Hanagita Peak, Hawkins Glacier, Heney Glacier, Hubbard Glacier, Icy Bay, Jatahmund Lake, Jefferies Glacier, Kaliakh River, Kanak Island, Kayak Island, Kennicott Glacier, Klutina River, Klutlan Glacier, Logan Glacier, Long Glacier, Lucia Glacier, Malaspina Glacier, Martin River, Martin River Glacier, Mentasta Mountains, Miles Glacier, Miles Lake, Mount Augusta, Mount Bear, Mount Blackburn, Mount Bona, Mount Churchill, Mount Drum, Mount Jarvis, Mount Sanford, Mount Wrangell, Nabesna Glacier, Nizina River, Nutzotin Mountains, Ocean Cape, Oily Lake, Point Manby, Point Riou, Regal Glacier, Robinson Mountains, Root Glacier, Russell Fjord, Russell Fjord Wilderness, Russell Glacier, Saint Elias Mountains, Schwan Glacier, Seward Glacier, Sheridan Glacier, Steller Glacier, Tana Glacier, Tana River, Tanada Lake, Tazlina River, Tebay Lakes, Tielke River, Tongass National Forest, Tonsina Lake, Tonsina River, Tyndall Glacier, Walsh Glacier, Wernicke Glacier, Wingham Island, Woodworth Glacier, Wrangell Mountains, Wrangell-St. Elias National Park, Wrangell-St. Elias National Preserve, Yahtse Glacier, Yakutat Bay. Map Scale = 1:400,000 1:110,000 Sheet Size = 13.75" x 9.25" Folded Size = 4.25" x 9.25"

About the Author  
Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
