0 of 0 people found the following review helpful. This book offers much of what one would expect from ...By Paul DexterThis book offers much of what one would expect from a resume-writing guide. Examples include guidelines on crafting effective language, the use of specific resume sections, and advice on how to manage situations such as a gap in employment. What makes this book stand out is its style of writing. The language is both direct and directive; the author does not mince words, and his approach seems designed to motivate the reader to take action. One of the first action steps outlined is to take inventory of strengths, values, and skills, with tools provided for each. The author offers practical advice throughout the writing process, and frames resume writing within the contexts of today's job market, applying to jobs, and building one's professional network. This is a truly valuable resource for people at any phase of the job search or anywhere along the professional development spectrum.0 of 0 people found the following review helpful. Great Resume ResourceBy WillGreg has drawn on his years of experience to develop a great resource

for everyone trying to write a resume, no matter where they are in the career search. 0 of 0 people found the following review helpful. ... reading it yet but it has allready been an amazing, eye opening bookBy marioI am not done reading it yet but it has allready been an amazing, eye opening book. Anybody intersted In a succseful job search should use.

Looking for a job? Then you need an A+ quality resume. Having written 1,800+ resumes, Greg Fall provides step-by-step, detailed "how to" instructions for writing each section of the resume to get you noticed and help secure an interview. You will learn unique concepts and strategies Greg has developed over the years to give his clients an edge, including those of: the "one resume," "core strengths," "core hiring motives," the "news article cover letter," the "targeted reference list," among many others. An entire chapter is promoted to taking a detailed inventory of your strengths, values, and skills and the following chapter describes how to use such information to create an effective and authentic brand to be marketed on the resume. As important as writing your resume, this book explains in detail how you should be using it, including how to avoid the trap of simply submitting it with online applications and waiting forever as no one contacts you. The book details ideas for getting it in the hands of the hiring manager and also how to integrate it with social media. In addition, this book offers more than 50 pages of networking, interviewing, and negotiating tips.
