Julie Levitt, Lauri Harwood : Your Career: How to Make it Happen (with CD-ROM) (Available Titles CourseMate) before purchasing it in order to gage whether or not it would be worth my time, and all praised Your Career: How to Make it Happen (with CD-ROM) (Available Titles CourseMate):

0 of 0 people found the following review helpful. Four StarsBy SMyersgot me through the class0 of 0 people found the following review helpful. Excellent Overall Service!By htank28Delivery was several days early and product was in exact condition, as described. I have been ordering books from .com for two years, for every semester of college. Only had one bad experience but it would have been avoided on my behalf, if I had completely read the description. Thought that I verified that disk was included with my book, but after receiving at my home. I went back to description after opening package and reading my order form in bold black letters packaged with my book reading "disk not included," and same description on website--some how overlooked. In result, I have had OUTSTANDING

OVERALL SERVICE WITH AMAZON.COM, EXTREMELLY HAPPY CUSTOMER! Thank you , for all the savings you have brought me, and I hope the perfect service continues!0 of 0 people found the following review helpful. Never Received my order or got a reply from the SupplierBy School MomI ordered this book months ago, and never received my book. I've contacted the seller a couple different times and have got no response. This book was intended to be used for my college course this quarter. It's bad service for the seller to take my money and then not respond when they didn't ship my book. I definitely will not order through this seller again. I'd be careful if I were you.I did look at a classmates book and the book itself is very helpful and the CD has great exercises on it. But crappy to buy a book only not to receive it.

Introducing Your Career 7e, helping YOU stand out! THE #1 text of its kind, Your Career, 7e, has a brand new look! This new edition is sharp and focused, and it targets the best practices in today's job search and career-development process. Your Career, 7e, provides everything needed to deliver top-quality instruction and help students stand out in a crowd. Clear instruction guides students through self-assessment, employer research, writing a market-driven resume, and interviewing. Practical assignments and a technology-driven focus connect your students directly with the business community, employers, and the Internet. Your Career 7e provides the necessary tools for students to gain a competitive advantage in the workplace and reach their career potential.

"This text has just the right amount of instruction in terms of scope. It can be used both to enhance previous instruction and it can be used to introduce topics""Love this chapter, if I could have written it I would have, but now I don't have to!""The sequence of the material is excellent, flowing well according to how students would have to think through and then do the activities. Additionally, the balance between explaining why something should be done (strategy) and how to do it (process) is very understandable.""The new Jump Start feature is great! Not only is the feature interesting, but it is quick. Students will readily gain an understanding and appreciation of what the chapter is about. I believe it will serve as an incentive to reading, whereas most introductions are often a "turnoff" and do the opposite.""I believe this text has hit a home run and will provide the student as well as the instructor a wonderful experience in and out of the classroom."About the AuthorJulie Griffin Levitt is a business educator, corporate trainer and consultant, lecturer, and author of numerous educational publications. She teaches and consults in the areas of career planning and job search skills, office occupations, communications, supervision, and motivation. While teaching job-seeking and career planning skills at the secondary and post-secondary levels, Ms. Levitt's students have had a 97% job placement ratio.Lauri Harwood is a widely respected consultant and trainer. Her extensive experience includes 15 years of developing corporate training for Procter Gamble. She is an instructor at Miami University in Cincinnati, Ohio. As the owner of Vandalay Group, Inc., she serves as a writer, instructional designer, and program/project manager. Her degrees include a bachelor of arts in English literature (University of Cincinnati) and a Master of Technical and Scientific Communication (Miami University).
